Windows 7 Professional

Microsoft has announced that the new Windows® 7 will be generally available on October 22, 2009! Windows® 7 Professional is the new operating system from Microsoft.

Designed to meet the needs of small and midsize businesses, the Windows® 7 Professional operating system delivers a powerful combination of innovation, improved performance, and productivity. At IDSI, we're focusing on issues that have a direct impact on your business, by providing you with solutions that:

- **Work the way you want.** Fast, reliable, and compatible, Windows® 7 Professional delivers a solid foundation for running a business in today's competitive environment.
- **Help you get more done.** Find what you need quickly, easily connect to your networks, and be more productive—whether you're at work, at home, or on the road.
- **Safeguards your work.** Keep your business up and running with new security and recovery options that help prevent security threats and data loss.

Contact IDSI today to find out how Windows® 7 Professional will impact your business, and see our Special of the Month section below, for a great deal on a nicely equipped, low cost desktop computer with upgrade rights to Windows® 7 Professional when it ships!!!
